Storebrand Bank Group

- Interim report for 4Q 2010

(Figures for the corresponding period in 2009 shown in brackets)

- Continued improvement in profitability
- Growth in net interest income
- Cost program delivers according to plan

RESULT

The bank group's operating profit before losses and write-downs on investment properties amounted to NOK 44 million (NOK 35 million) for the quarter and NOK 158 million (NOK 115 million) for the full year. The result for 2010 shows an improvement of NOK 64 million compared with 2009, primarily due to improved net interest income and the implemented costs program.

Net interest income amounted to NOK 113 million (NOK 104 million) for 4Q and NOK 457 million (NOK 423 million) for the full year. The bank group's performance was characterised by improved deposit margins and reduced borrowing costs compared with the same period in 2009. Net interest income as a percentage of average total assets was 1.14 per cent (0.92 per cent) for the quarter and 1.10 per cent (0.95 per cent) for the full year.

Net fee and commission income was on a par with last year and amounted to NOK 19 million (NOK 20 million) for 4Q and NOK 74 million (NOK 76 million) for the full year.

Other income amounted to NOK 36 million (NOK 57 million) for the quarter and NOK 102 million (NOK 148 million) for the full year. The reduction in other income compared with last year was primarily a result of general spread widening, which reduces the value of the bank group's liquidity portfolio, as well as the redemption of Euro bonds in the subsidiary Storebrand Boligkreditt AS in 2Q 2010. Value creation in the liquidity portfolio amounted to minus NOK 2 million (NOK 2 million) for 4Q and minus NOK 6 million (NOK 22 million) for the full year.

Ring Eiendomsmegling's income amounted to NOK 20 million (NOK 22 million) for 4Q and NOK 89 million (NOK 85 million) for the full year. The growth in income in the year was due to an increase in sales of new housing projects and increased average sales commission. The result also developed positively and the pre-tax result in Ring Eiendomsmegling for 4Q and the full year was minus NOK 5 million (minus NOK 22 million) and minus NOK 5 million (minus NOK 38 million), respectively. Ring Eiendomsmegling's result for 2010 was affected by continued restructuring, the company has booked costs of NOK 4 million in the quarter related to concept development and system development.

The banking operations operating costs¹) were NOK 87 million (NOK 92 million) for the quarter and NOK 351 million for the full year, compared to NOK 391 million for the full year 2009. The positive development reflects the result of the bank's cost program, which has delivered expected cost reductions. The cost/income ratio in bank operations was 70 per cent for 3Q and 68 per cent for the year-to-date. The increase in 4Q was due in part to costs associated with the continued implementation of the bank's costs program.

A NOK 15 million (NOK 13 million) of net lending writedowns were recognised as costs in the quarter, and NOK 15 million (NOK 46 million) for the full year. There was a net change during the quarter of NOK 2 million in writedowns on investment properties linked to repossessed collateral. Total write-downs in investment properties (presented on a separate line under operating costs) for the full year amounted to NOK 14 million, compared with NOK 35 million for the full year 2009.

¹⁾ Banking operations consist of Storebrand Bank ASA, Storebrand Boligkreditt AS and Storebrand Eiendomskreditt AS.

Portfolio performance and credit risk

Gross lending to customers amounted to NOK 34 billion at year-end 2010. This was unchanged in the quarter and represents in a reduction of NOK 2 billion since year-end 2009. The retail portfolio accounted for NOK 0.9 billion of the reduction in the last quarter and NOK 2.5 billion for the full year. This development was primarily due to a reduction in loan portfolios linked to the winding up of external distribution. Gross lending in Storebrand Eiendomskreditt amounted to NOK 2.3 billion, and gross lending in Storebrand Boligkreditt amounted to NOK 13.8 billion.

The bank's retail market portfolio represents 65 per cent of the bank's total lending and primarily comprises low risk mortgages. The average weighted loan-to-collateral value ratio is around 54 per cent for mortgages. Corporate market lending accounts for 35 per cent of the portfolio and at year-end 2010 the portfolio consisted of approximately 80 per cent lending to income generating property and 20 per cent lending to development projects. Lending to income generating property is secured by lease properties, which at a portfolio level are characterised by a well diversified tenant profile and long-term leases. Few customers' commitments are non-performing or loss-exposed, and the level of losses in the portfolio is low.

The volume of non-performing and loss-exposed commitments in the bank group amounted to NOK 698 million, equivalent to 2.0 per cent of gross lending, at the close of the quarter. The increase in 4Q was primarily related to one commitment, which went into compulsory liquidation in January 2011. This is an improvement since year-end 2009 when the volume of non-performing and loss-exposed loans amounted to 2.5 per cent of gross lending.

Losses developed positively compared with 2009 and total losses for the full year amounted to 0.07 per cent (0.19 per cent) of total assets, including write-downs on investment properties (taken over commitments).

Liquidity risk and funding

The volume of deposits amounted to NOK 19 billion at the close of the quarter. The deposit-to-loan ratio was 55 per cent. This is an increase from 51 per cent at year-end 2009. The bank established new and longer term credit facilities totalling NOK 1,250 million in October 2010 and thus redeemed its existing credit facility. The higher proportion of deposits during 2010 and good access to funding, especially through covered bonds, are providing the bank with a solid funding platform.

Covered bonds issued by Storebrand Eiendomskreditt AS were redeemed early in December 2010. During the quarter, Storebrand Bank ASA received approval from the Ministry of Finance to substitute collateral linked to the Norwegian Government's swap arrangement.

Capital adequacy

The bank group's capital adequacy was 13.0 per cent and its core (tier 1) capital ratio was 10.6 per cent at the close of the quarter.

MARKET

The competition for mortgages remained tough throughout the quarter. The bank has implemented a series of measures aimed at retaining existing customers, as well as recruiting new customer and cross sales measures.

House prices fell by an average of 1.1 per cent in 4Q, but rose by 6.5 per cent for the year as a whole. Nonetheless, housing sales were very good in the quarter with more than 11,000 homes sold, which is an increase on 2009. Ring Eiendomsmegling sustained its housing sales from 2009 during the quarter, despite having fewer offices.

The market for commercial properties has to date weathered the financial crisis well with low vacancy levels. Rents has bottomed out and are increasing again, albeit moderately. The market is more focused on eco buildings and the largest tenants are willing to pay a higher rent to attain a high environmental classification. The bank's lending volume in the corporate market grew in 4Q, and quality remained unchanged.

STOREBRAND BANK ASA'S PERFORMANCE

Storebrand Bank ASA's net interest income amounted to NOK 79 million (NOK 73 million) for 4Q and NOK 303

million (NOK 314 million) for the full year. The reduction in 2010 was primarily a result of the reduced lending volume due to the transfer of lending to the mortgage companies.

The development in other income was largely affected by the bank's own holdings of covered bonds issued by Storebrand Boligkreditt AS and used in the swap scheme. The parent bank's other income was positive in the quarter and amounted to NOK 15 million (NOK 97 million) and negative for the full year in the amount of minus NOK 29 million (NOK 129 million). 4Q saw lending write-downs of NOK 19 million (NOK 23 million). At the end of the quarter, non-performing and loss-exposed loans without impairment amounted to NOK 227 million and non-performing and loss-exposed loans with impairment amounted to NOK 408 million, which gives a total volume of non-performing and lossexposed loans of NOK 635 million.

The deposit-to-loan ratio in the parent bank was 102 per cent at the close of the quarter compared to 86 per cent at year-end 2009. The development of the depositto-loan ratio in the parent company was affected by both the increased volume of deposits and the reduced lending volume in connection with sales of loans from the parent company to the mortgage companies.

GENERAL

The launch of a new price and product structure in the retail market, increasing lending volumes, cross sales, and implementing cost measures will be prioritised in the first half of 2011. A decision has also been made to wind up the subsidiary Storebrand Eiendomskreditt AS and the loans were sold back to Storebrand Bank ASA in January 2011. Developments in the capital market, interest rate levels, unemployment and the property market, together with changes to the regulatory conditions, are considered the most significant risk factors that could affect the bank group's accounting figures over the next six months.

The Board of Directors is unaware of any events that have occurred since the balance sheet date that would be material to the interim financial statements as presented.

Definitions:

1) Average total assets is calculated on the basis of monthly total assets for the quarter and for the year to date respectively.

2) Annualised profit after tax adjusted for hedging ineffectiveness as % of average equity.

3) Annualised net interest income adjusted for hedging ineffectiveness.

4) The method for calculating the "net interest income as a percentage of average assets under management" key figure has been changed from and including Q1 2010 and is now calculated on the basis of actual/365. The change has no consequences for net interest income as a percentage of average assets under management on an annual basis and provides a more correct picture of the development over the year.

5) Other operating income includes net fee and commission income.

6) Banking activities consists of Storebrand Bank ASA, Storebrand Boligkreditt AS and Storebrand Eiendomskreditt AS.

The equity changes with the result for the individual period, equity transactions with the owners and items that are entered directly on the balance sheet. Share capital, the share premium fund and other equity is evaluated and managed together. The share premium fund may be used to cover a loss, and other equity may be used in accordance with the provisions of the Public Limited Liabilities Company Act.

Storebrand Bank pays particular attention to the active management of equity in the banking group. This management is tailored to the business-related financial risk and capital requirements in which the composition of its business areas and their growth will be an important driver for the group's capital requirements. The goal of the capital management is to ensure an effective capital structure and reserve an appropriate balance between internal goals in relation to regulatory and the rating companies' requirements. If there is a need for new equity, this must be procured by the holding company Storebrand Bank ASA.

Storebrand Bank is a financial group subject to statutory requirements regarding primary capital under the capital adequacy regulations. Primary capital encompasses both equity and subordinated loan capital. For Storebrand Bank, these legal requirements carry the greatest significance in its capital management.

The banking group's goal is to achieve a core (tier 1) capital ratio of 10% over time. In general, the equity of the bankking group can be managed without material restrictions if the capital requirements are met and the respective legal entities have adequate solidity. Capital can be transferred from foreign legal entities with the consent of local supervisory authorities.

For further information on the group's fulfilment of the capital requirements, see note 15.

The cash flow analysis shows the group's cash flows for operational, investment and financial activities pursuant to the direct method. The cash flows show the overall change in means of payment over the year.

Operational activities

A substantial part of the activities in a financial group will be classified as operational.

Investment activities

Includes cash flows for holdings in group companies and tangible fixed assets.

Financing activities

Financing activities include cash flows for equity, subordinated loans and other borrowing that helps fund the group's activities. Payments of interest on borrowing and payments of group contribution are financial activities.

Cash/cash equivalents

Cash/cash equivalents are defined as claims on central banks and lending to and claims on financial institutions. Last year's figures have been restated in accordance with this definition.

NOTE 1 ACCOUNTING PRINCIPLES

The consolidated interim accounts for the group include Storebrand Bank ASA together with subsidiaries, joint ventures and associated companies. The interim accounts for Q4 have been prepared in accordance with IAS 34 Interim Financial Reporting. The interim accounts do not include all the information required for full annual accounts prepared in accordance with all the current IFRS standards.

The interim accounts of Storebrand Bank ASA are prepared in accordance with Section 1-5 of the Norwegian regulations for the annual accounts of banks and finance companies etc. that provides for simplified application of international accounting standards, (hereinafter termed simplified IFRS), and with IAS 34 Interim Financial Reporting. Simplified IFRS permits recognition to profit and loss of provisions for dividend and group contribution, and allows the Board of Director's proposal for dividend and group contribution to be recognized as a liability on the balance sheet date. The full application of IFRS stipulates that dividend and group contribution must remain part of equity until approved by the company's general meeting. Other than this, simplified IFRS requires the use of the same accounting principles as the full application of IFRS.

The annual report and accounts of Storebrand Bank ASA and the Storebrand Bank ASA group for 2009 is available on request from the company's registered office at Professor Kohts vei 9, Lysaker, and is also available at www.storebrand.no. Information on the accounting principles used in the interim accounts can be found in the accounting principles note to the 2009. There have not been any changes of accounting principles in 2010.

Changes in standards

Changes have been made to the following standards and these came into force on 1 January 2010:

- IFRS 3 Business Combinations
- IAS 27 Consolidated and Separate Financial Statements

Changes to accounting standards have not had an effect on the banking group's financial reporting during the quarter.

NOTE 2 ESTIMATES

The preparation of the interim accounts involves the use of estimates and assumptions that have an effect on assets, liabilities, revenue, costs, the notes to the accounts and information on potential liabilities. There will be uncertainty related to estimates and assumptions. In the future, actual experience may deviate from the estimates used. Please refer to note 1 and 2 in the annual report and accounts for 2009. Please refer to the discussions in notes 1 and 2 of the 2009 annual report. Storebrand's pension liabilities associated with its own employees are not affected by changes to the contractual pension scheme since Storebrand's pension scheme does not include the contractual pension scheme.

The bank changed its definition of non-performing and loss-exposed loans in Q4 2009, which resulted in more loans being defined as non-performing and loss-exposed. See the new definition in note 10.

NOTE 3 CHANGES IN THE COMPOSITION OF THE GROUP

A NOK 7.0 million issue was conducted in Ring Eiendomsmegling AS in October 2010.

A NOK 1.7 million issue was conducted in Hadrian Utvikling AS in December 2010 and at year-end 2010 Storebrand Bank ASA had an ownership interest of 96.09 per cent.

The subsidiaries Ullensaker Boligbygg AS and Ullensaker Boligbygg KS petitioned for winding up in November 2010 and were subject to liquidation proceedings as per 31 December 2010.

Transferred financial assets - Norwegian Government's Swap arrangement

Transferred financial assets consist of swap agreements with the state through the Ministry of Finance concerning the posting of financial collateral. The swap agreements are entered into through auctions that are administrated by Norges Bank. Int the swap agreement, the state sells state treasury bills to the bank through a time/restricted swap for covered bonds. The bank can either keep the state treasury bill and receive payment from the state when the swap falls due for repayment, or it may sell the treasury bill in the market. When the bills becom due within the term of the swap agreement, the bank must purchase new bills from the state at the price that is determined by the market price for treasury bills. This roll/over will be on/going throughout the entire term of the agreement. Upon expiry of the swap agreement, the bank is obligated to purchase the covered bonds back from the state at the same price that the state purchased them for. Storebrand Bank ASA will receive the returns on the transferred covered bonds. All risk concerning the covered bonds continues to lie with Storebrand Bank ASA.

Lending transferred to Storebrand Boligkreditt AS and Storebrand Eiendomskreditt AS

Storebrand Bank ASA shall arrange the transfer and return of loans when changes have to be made, i.e. if there is a need to increase borrowing, change from variable to fixed interest, convert to empoloyee loan or convert to a mortgage loan. The costs form part of the contractual administration fees. The mortgages will be transferred on commercial terms. Non-performing loans in Storebrand Boligkreditt AS and Storebrand Eiendomskreditt AS remain in the undertaking. These loans will, pursuant to the service agreement with Storebrand Bank ASA, be treated in the same way as non-performing loans in the bank. Specific non-performance reports are prepared for non-performing loans in Storebrand Boligkreditt AS and Storebrand Eiendomskreditt AS. | 774.8 | 447.4 | Net defaulted and loss-exposed loans | 524.0 | 702.0 | |

The definition of non-performing and loss-exposed was changed in Q4 2009. Commitments are regarded as non-performing and loss-exposed:

- when a credit facility has been overdrawn for more than 90 days
- when a repayment loan has arrears older than 90 days
- when a credit card has arrears older than 90 days and the credit limit has been overdrawn. If a repayment plan has been agreed with the customer and is being adhered to, the overdraft is not regarded a non-performance.

When one of the three situations described above occurs, the commitment and the rest of the customer's commitments are regarded as non-performing and loss-exposed. The number of days is counted from when the arrears exceed NOK 2,000. The account is given a clean bill of health when there are no longer any arrears. The amount in arrears at the time of reporting can be less than NOK 2,000.

Lending commitments that are continued after collateral is taken over are classified in the financial statements according to their type. Lending commitments, including individual write-downs against debt in the taken over company are eliminated in the consolidated financial statements. The volume of non-performing and loss-exposed loans is similarly eliminated. A separate assessment is made in the consolidated financial statements in relation to any write-down/value adjustment of the assets that have been taken over. The value of taken over investment properties was adjusted with a negative amount in the consolidated financial statements as of 31 December 2010 by an amount equal to the individual write-downs associated with the pertinent lending commitment in the parent bank of NOK 14.1 million. Accordingly the negative amount was NOK 34.9 million as of 31 December 2009.

NOTE 11 INTANGIBLE ASSETS AND FIXED ASSETS

Costs of NOK 18.7 million were capitalised as of 31 December 2010 as intangible assets and fixed assets in Storebrand Bank ASA and Storebrand Bank Group. Accordingly costs of NOK 3.1 million were capitalised in Q4. This relates principally to costs incurred on systems development, data warehouse, systems licenses and similar costs. The value of the building project in Bjørndalen Panorama AS was written down by NOK 14.1 million as of 31 December 2010, accordingly NOK 2.1 million in Q4. This is presented on a separate line in the profit and loss account.

The value of software has been written down by NOK 4.9 million as of 31 December 2010. There are no changes in Q4. Goodwill related to Hadrian Utvikling AS has in its enirety been written down in Q4 and write-downs amount to NOK 5.4 million.

NOTE 14 RISK MANAGEMENT

The market value of Storebrand Bank's financial assets and liabilities varies due to financial market risks. Note 43 of the 2009 annual report explains the banking group's financial risks which also describes the financial risks as per 31 december 2010.

NOTE 15 CAPITAL ADEQUACY

Capital adequacy calculations are subject to special consolidation rules in accordance with the Regulation on consolidated application of the capital adequacy rules etc. (the "Consolidation Regulation"). The Storebrand Bank group is defined pursuant to Section 5 of the Consolidation Regulation as a financial group comprising solely or mainly undertakings other than insurance companies. The valuation rules used in the company's accounts form the basis for consolidation. Consolidation is, in the main, carried out in accordance with the same principles as used in the accounts, with all internal transactions eliminated, including shares, loans and deposits as well as other receivables and liabilities. Companies in which the group has a minority interest are included on a proportional basis applying the percentage interest held by the group at 31 December 2010.

The figure for primary capital used in calculation of capital adequacy will differ from the figure shown in the accounts since the calculation does not include accrued profit for the year or minority interests.

Capital adequacy is calculated in accordance with the Basel II regulations. The company uses the standard method for credit risk and market risk, and the basic method for operational risk. The minimum requirement for the capital ratio is 8%.

Basel II is divided into three pillars (areas). Pillar 1 deals with the minimum requirement for capital adequacy and represents a continuation of the former regulations pursuant to Basel I. Pillar 2 deals with supervisory evaluation of capital requirement and supervisory monitoring (ICAAP), while Pillar 3 deals with the requirements for publication of financial information.
