Storebrand Bank Group

- interim report for and as of 30 September 2009

(Figures for the corresponding period in 2008 shown in brackets)

- The result developed positively due to increased net interest income for Q3.
- The balance sheet strengthened due to a more robust financing structure.
- In October 2009, Storebrand Eiendomskreditt AS issued covered bonds secured by mortgages for commercial properties amounting to NOK 1.6 billion.
- Improved core (tier 1) capital ratio after Storebrand ASA decides to issue a NOK 200 million private placement on 27 October 2009, the internal target core (tier 1) capital ratio has been increased to 10%.
- · Good portfolio quality and development in losses and defaults.
- Own costs programme established with goal of annual cost savings of NOK 50 million with full effect from 2011.

FINANCIAL PERFORMANCE - BANKING GROUP

The banking group's operating profit before losses amounts to NOK 22 million for Q3 and NOK 55 million (NOK 136 million) for the year-to-date.

Net interest income as a percentage of average total assets under management amounts to 0.95% (1.24%) for Q3 and 0.94% (1.23%) for the year-to-date, compared to 1.17% for the full year 2008. Net interest income amounts to NOK 105 million (NOK 149 million) for Q3 and NOK 319 million (NOK 403 million) for the year-to-date.

In the autumn of 2008, the bank secured financing with fixed-rate periods of 6 and 12 months without interest rate hedging. This has increased financing costs in the year-to-date due to falls in money market interest rates. The effect of increased funding costs is expected to decrease from Q4 and this will improve net interest income.

The bank has since the autumn of 2008 prioritised good liquidity, which is reflected in the increased liquidity portfolio. The banking group's liquidity situation was good at the close of the quarter.

The share of deposits is stable. Reduced deposit margins had a negative effect on net interest income compared to the same period last year. The bank's lending margin as measured against the 3-month NIBOR rate is improved in the quarter.

Net commission income improved by NOK 4 million in Q3 compared to the same period last year and mainly derives from commission from the sale of savings products in the second-hand market, portfolio commission and guarantee commission.

Other income is substantially higher than in the same period in 2008. The improved housing market is strengthening the development of Ring Eiendomsmegling. Changes in the fair value of financial instruments have a positive result effect of NOK 14 million (minus NOK 17 million) in Q3 and NOK 19 million (minus NOK 23 million) for the year-to-date.

The banking group's operating costs amount to NOK 142 million for Q3, compared to NOK 122 million for the same period last year. The bank has initiated its own costs programme aimed at reducing annual operating costs by NOK 50 million with full effect from 2011. NOK 12 million was allocated for restructuring costs in connection with this during the quarter. Storebrand Bank ASA took over the Bjørndalen Panorama real estate project in Q1 in connection with a bankruptcy. Following its takeover the real estate project has been written down by a further NOK 25 million, NOK 6 million of which was written down in Q3. The write-down increases operating costs in the consolidated financial statements and increases loss costs in the parent bank.

The positive development of the banking group's income during the quarter has helped it maintain a costs ratio of 83% (77%) for the year-to-date. The banking activities

had a costs ratio of 75% (66%) for the year-to-date. The banking activities' goal is to reach a costs ratio of 60%.

Balance sheet performance

Gross lending to customers has decreased from NOK 39 billion at year-end 2008 to NOK 37 billion at the close of the quarter. Total commercial lending has fallen by 4.7% from Q4 2007 to the close of Q3 2009. In 2009, mortgages for commercial properties fell by NOK 389 million in the parent bank, NOK 232 million of which occurred in Q3.

Access to long-term financing in the capital market is improving. Storebrand Bank has utilised the swap scheme administered by Norges Bank through its subsidiary Storebrand Boligkreditt AS, which has issued covered bonds secured by retail mortgages.

Storebrand Bank ASA established a subsidiary in Q2 2009, Storebrand Eiendomskreditt AS. In October, this company issued covered bonds secured by mortgages for commercial properties amounting to NOK 1.6 billion. Mortgages worth more than NOK 2 billion were transferred to the subsidiary in October.

The net write-down of lending amounts to NOK 4 million (NOK 27 million) for Q3 and NOK 33 million (NOK 36 million) for the year-to-date. Total write-downs at the close of Q3 amount to 0.12% of the lending portfolio on an annualised basis.

The reduction in the banking group's total volume of non-performing and loss-exposed loans continued in Q3 compared to year-end 2008. The volume of non-performing and loss-exposed loans amounted to NOK 522 million as per 30 September 2009 (NOK 624 million) and NOK 710 million as per 31 December 2008. Total non-performing and loss-exposed loans in the banking group amounted to 1.4% at the close of Q3, compared to 1.9% as per 31 December 2008. The reduction in non-performing and loss-exposed loans resulted from the commit-

ments in both the retail and corporate markets being monitored closely, and identifying and eliminating lending commitments taken over by the bank.

The development in risk has been taken into account when assessing actual losses, individual write-downs and group write-downs. Group write-downs have increased by NOK 2 million in the quarter and by NOK 19 million in the year-to-date.

At the end of the quarter the banking group's assets under management amounted to NOK 42.8 billion compared to NOK 45.6 billion at year-end 2008. Total lending has decreased by just under 5% to NOK 37.2 billion in the year-to-date. Storebrand Livsforsikring AS' lending, administered by Storebrand Bank ASA, has remained almost unchanged in 2009 and amounted to NOK 3.7 billion at the close of Q3.

At the end of the quarter, gross loans in the subsidiary Storebrand Boligkreditt AS totalled NOK 13.2 billion of a total loan volume in the retail market of NOK 25.8 billion.

Capital adequacy at the close of the quarter was 12.2% and the core (tier 1) capital ratio was 9.1%, compared to capital adequacy of 10.8% at the close of 2008. Profit for the year is not added to primary capital when calculating capital adequacy. On 27 October 2009 it was decided to carry out a NOK 200 million private placement from Storebrand ASA to increase the core (tier 1) capital ratio up to 10% pursuant to the new internal target.

STOREBRAND BANK ASA'S PERFORMANCE

The development in net interest income shows a reduction in Q3 and the year-to-date compared to the previous year, and net interest income amounts to NOK 241 million as of 30 September 2009, which corresponds to 0.82% of average total assets. Apart from what has already been mentioned under Storebrand Bank Group, the reduction compared to 2008 is a result of the bank, as part of the establishment of Storebrand Boligkreditt AS, selling parts of its retail loan portfolio to the subsidiary.

The development in other income for Storebrand Bank ASA (the parent bank) is affected by the development of the credit market. Changes in unrealised gains associated with the liquidity portfolio total NOK 33 million for the year-to-date, of which the net unrealised gain for Q3 totalled NOK 55 million. The parent bank's liquidity portfolio has grown compared to the corresponding period last year because it has invested in covered bonds issued by its subsidiary Storebrand Boligkreditt AS.

The liquidity portfolio decreased in Q3 from almost NOK 10 billion at the close of Q2 to NOK 9.2 billion at the close of Q3. The liquidity portfolio amounted to NOK 6.6 billion as per 31 December 2008. The effects related to the parent bank's holding of covered bonds issued by its subsidiary are eliminated in the banking group.

Q3 saw a net increase in write-downs of loans of NOK 10 million (NOK 26 million), and of NOK 57 million (NOK 36 million) for the year-to-date, which included write-downs linked to loan commitments relating to repossessed assets. Total write-downs at the close of Q3 amount to 0.3% of the lending portfolio on an annualised basis.

The costs ratio for Storebrand Bank ASA was 82% (66%) for Q3 and 95% (65%) for the year-to-date, an increase compared to H1 2009.

The deposit-to-loan ratio in the parent bank was 78% at the close of the quarter, compared to 60% last year. The development of the deposit-to-loan ratio in the parent company is primarily affected by the sales of loans from the parent company to Storebrand Boligkreditt AS.

General

No events have occurred since the balance sheet date that would be material to the interim accounts

Developments in the capital market, interest rate levels, unemployment and the housing market are considered the most significant risk factors that could affect the banking group's accounting figures over the next six months.

The interim report for the Storebrand Bank Group has been subject to limited auditing by Deloitte AS.

NOTE 1 ACCOUNTING PRINCIPLES

The consolidated interim accounts for the group include Storebrand Bank ASA together with subsidiaries, joint ventures and associated companies. The interim accounts for first nine months have been prepared in accordance with IAS 34 Interim Financial Reporting. The interim accounts do not include all the information required for full annual accounts prepared in a ccordance with all the current IFRS standards.

The interim accounts of Storebrand Bank ASA are prepared in accordance with Section 1-5 of the Norwegian regulations for the annual accounts of banks and finance companies etc. that provides for simplified application of international accounting standards, (hereinafter termed simplified IFRS), and with IAS 34 Interim Financial Reporting. Simplified IFRS permits recognition to profit and loss of provisions for dividend and group contribution, and allows the Board of Director's proposal for dividend and group contribution to be recognized as a liability on the balance sheet date. The full application of IFRS stipulates that dividend and group contribution must remain part of equity until approved by the company's general meeting. Other than this, simplified IFRS requires the use of the same accounting principles as the full application of IFRS.

The annual report and accounts of Storebrand Bank ASA and the Storebrand Bank ASA group for 2008 is available on request from the company's registered office at Filipstad Brygge 1, Oslo, and is also available at www.storebrand.no. Information on the accounting principles used in the interim accounts can be found in the accounting principles note to the 2008 accounts with exception of the changes described below.

NEW STANDARDS AND CHANGES IN STANDARDS

IAS 1 Presentation of Financial Statements

The revised standard entails some changes to the layout of the equity statement and the statement of non-owner transactions. Storebrand has amended the statements with respect to these changes in accordance with IAS 34, which has been changed in lines with the revised IAS 1 Presentation of Financial Statements. The changes to IAS 1 have no effect on the reporting of the group's financial position.

IFRS 8 Operating Segments

IFRS 8 Operating Segments, which replaces IAS 14 Segment Reporting, is based to a greater degree on the management's internal monitoring. Storebrand Bank's segment reporting was previously also based on the management's internal monitoring and the transition to IFRS 8 therefore entails no changes in segment reporting. Nor have any changes been made to the measurement of the segment results, which is based on principles used in IFRS in the financial statements.

The changes to IAS 1 and IFRS 8 came into force on 1 January 2009. Both standards relate to notes to the accounts and their implementation therefore has no effect on the measurement or periodising of the items in the financial statements for the accounting period.

NOTE 2 ESTIMATES

The preparation of the interim accounts involves the use of estimates and assumptions that have an effect on assets, liabilities, revenue, costs, the notes to the accounts and information on potential liabilities. There will be uncertainty related to estimates and assumptions. In the future, actual experience may deviate from the estimates used. Please refer to note 1 and 2 in the annual report and accounts for 2008.

As far as losses on loans are concerned the uncertainty in the markets' future development has resulted in uncertainty in the calculation of losses having increased somewhat. No changes have been made to routines and assumptions associated with the assessment of non-performance and the need for write-downs compared with earlier periods.

The risk of experiencing a loss in the portfolio has increased somewhat due to the recent financial instability and the uncertainty in the real estate and housing markets, which means increased uncertainty in the assessment of the size of individual and group write-downs.

NOTE 3 CHANGES IN THE COMPOSITION OF THE GROUP

The subsidiary Storebrand Eiendomskreditt AS' (Formerly Start Up 104 AS) capital has been increased by NOK 700 million. The company will purchase commercial mortgages from Storebrand Bank ASA and issue covered bonds from and including October 2009.

NOTE 7 CLOSE ASSOCIATES

Covered bonds issued by Storebrand Boligkreditt AS

Storebrand Bank ASA has invested a total of NOK 5 billion in covered bonds issued by Storebrand Boligkreditt AS as of 30 September 2009. The investments are included in the liquidity portfolio in the parent company and are classified at fair value option. The investment has been eliminated in the consolidated accounts against bond issued by Storebrand Boligkreditt AS.

Transferred financial assets - Norwegian Government's Swap arrangement

Transferred financial assets consist of swap agreements with the state through the Ministry of Finance concerning the posting of financial collateral. The swap agreements are entered into through auctions that are administrated by Norges Bank. Int the swap agreement, the state sells state treasury bills to the bank through a time/restricted swap for covered bonds. The bank can either keep the state treasury bill and receive payment from the state when the swap falls due for repayment, or it may sell the treasury bill in the market. When the bills become due within the term of the swap agreement, the bank must purchase new bills from the state at the price that is determined by the market price for treasury bills. This roll/over will be on/going throughout the entire term of the agreement. Upon expiry of the swap agreement, the bank is obligated to purchase the covered bonds back from the state at the same price that the state purchased them for. Storebrand Bank ASA will receive the returns on the transferred covered bonds. All risk concerning the covered bonds continues to lie with Storebrand Bank ASA.

Lending transferred to Storebrand Boligkreditt AS

Storebrand Bank ASA shall arrange the transfer and return of loans when changes have to be made, i.e. if there is a need to increase borrowing, change from variable to fixed interest, convert to empoloyee loan or convert to a mortgage loan. The costs form part of the contractual administration fees. The mortgages will be transferred on commercial terms. Non-performing loans in Storebrand Boligkreditt AS remain in the undertaking. These loans will, pursuant to the service agreement with Storebrand Bank ASA, be treated in the same way as non-performing loans in the bank. Specific non-performance reports are prepared for non-performing loans in Storebrand Boligkreditt AS. These loans do not form part of the credit undertaking's total collateral.

Loan to employees can be transferred to Storebrand Boligkreditt AS. The difference between the market interest rate and the subsidised interest rate is covered monthly by the company in which the debtor is employed.

Storebrand Bank AS has not pledged any guarantees in connection with loans to Storebrand Boligkreditt AS.

Storebrand Bank AS and Storebrand Boligkreditt AS have signed a management agreement pursuant to which Storebrand Boligkreditt AS will purchase administrative services from the bank. Storebrand Boligkreditt AS also purchases administrative services from Storebrand Livsforsikring AS.

Business segments are the company's primary reporting segments.

Description of the segments:

Commercial Banking: This segment comprises deposits from and lending to commercial customers, principally real estate investors/developers. The segment includes the affiliated company Seilduksgaten 25/31 AS. The bank's share is 50% and net profit as of 30 September is minus NOK 1.5 million. Changes in value of repossessed assets are presented in the profit and loss account by item. In the note on segment changes are reported under provision of losses in accordance with internal procedure. The reclassification is adjusted for under the segment treasury/other.

Retail Banking: Deposits from and lending to retail customers, including credit cards. Lending is principally mortgage lending secured against residential real estate. The segment include deposits from and lending to retail customers in Storebrand Boligkreditt AS.

The segment also includes the bank's share in Storebrand Baltic UAB in Lithuaina on 50%. The ownership interest is classified as a jointly venture. Net profit as of 30 September is NOK 0,5 million.

Markets: This business area includes all the bank's activities in structured products, real estate funds, Storebrand Optimér ASA, Storebrand Infrastruktur ASA and stockbroking activities. The subsidiaries Hadrian Eiendom AS and Hadrian Utvikling AS are also included in this area, where the bank respectively had a 90.9% ownership interst and 86.15% ownership interest at the close of the third quarter 2009. Net profit for Hadrian Eiendom AS and Hadrian Utvikling AS are respectively NOK 1.0 million and minus NOK 0.6 million as of 30 September.

Real estate broking: This segment solely comprises Ring Eiendomsmegling AS with subsidiaries in which the bank had a 99.6% ownership interest at the close of the third quarter 2009.

The allocation of commission costs recognised in net interest income was changed in Q3. This weakens the retail market result in treasury/other correspondingly for the year-to-date. The segment result for H1 have not changed. The reallocation thus only affects the segments results in Q3 alone. The reported retail market results in Q3 is therefore weaker than the real underlying operations. Indirect income and indirect costs have been allocated on the basis of estimated use of resources.

Elimination of double counting applies principally to customer transactions carried out in collaboration between Markets and the relevant customer segment. The effects of financial hedging and the investment portfolio

Lending commitments that are continued after collateral is taken over are classified in the financial statements according to their type. Lending commitments, including individual write-downs against debt in the taken over company are eliminated in the consolidated financial statements. The volume of non-performing and loss-exposed loans is similarly eliminated. A separate assessment is made in the consolidated financial statements in relation to any write-down/value adjustment of the assets that have been taken over.

The value of taken over investment properties was adjusted with a negative amount in the consolidated financial statements as of 30 September by an amount equal to the individual write-downs associated with the pertinent lending commitment in the parent bank of NOK 25 million.

NOTE 11 INTANGIBLE ASSETS AND FIXED ASSETS

Costs of NOK 8.1 million were capitalised as of 30 September 2009 as intangible assets and fixed assets in Storebrand Bank ASA and Storebrand Bank Group. Accordingly costs of NOK 2.2 million were capitalised in Q3. This relates principally to costs incurred on systems development, data warehouse, systems licenses and similar costs. In connection with the take over of collateral associated with a loss exposed commitment in the corporate market, Storebrand Bank activated real estate under development amounting to NOK 94 million. The building project was sold to a subsidiary of the bank, Bjørndalen Panorama AS, which will complete the project. Following this takeover NOK 47 million relating to development in the project was activated. In addition Storebrand Bank has taken over the shares in Bjørndalen Tomteselskap AS, which owns the site associated with the property project in Bjørndalen Panorama AS. The building project is classified as real estate at fair value. The value of the building project in Bjørndalen Panorama AS was written down by NOK 6 million in Q3. This is presented on a separate line in the profit and loss account. In connection with the takeover of collateral associated with another loss exposed commitment in the corporate market, Storebrand Bank activated real estate under development amounting to a total of NOK 24 million as of 30 September 2009.

NOTE 14 RISK MANAGEMENT

Storebrand Bank ASA's and Storebrand Bank group's objectives and principles for the management of financial risk are as described in the 2008 annual report.

NOTE 15 CAPITAL ADEQUACY

Capital adequacy calculations are subject to special consolidation rules in accordance with the Regulation on consolidated application of the capital adequacy rules etc. (the "Consolidation Regulation"). The Storebrand Bank group is defined pursuant to Section 5 of the Consolidation Regulation as a financial group comprising solely or mainly undertakings other than insurance companies. The valuation rules used in the company's accounts form the basis for consolidation. Consolidation is, in the main, carried out in accordance with the same principles as used in the accounts, with all internal transactions eliminated, including shares, loans and deposits as well as other receivables and liabilities. Companies in which the group has a minority interest are included on a proportional basis applying the percentage interest held by the group at 30 September 2009. The figure for primary capital used in calculation of capital adequacy will differ from the figure shown in the accounts since the calculation does not include accrued profit for the year or minority interests.

Capital adequacy is calculated in accordance with the new capital adequacy regulation (Basel II). The company uses the standard method for credit risk and market risk, and the basic method for operational risk. The minimum requirement for the capital ratio is 8%.

Basel II is divided into three pillars (areas). Pillar 1 deals with the minimum requirement for capital adequacy and represents a continuation of the former regulations pursuant to Basel I. Pillar 2 deals with supervisory evaluation of capital requirement and supervisory monitoring (ICAAP), while Pillar 3 deals with the requirements for publication of financial information. The introduction of the new regulatory framework has caused changes to the calculation base for capital adequacy. Calculation of operational risk is a new element of the Basel II regulations. Management of market risk is only affected by the transition to the Basel II regulations to a minor extent.

To the board of Storebrand Bank ASA

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

We have reviewed the condensed consolidated financial statement of Storebrand Bank ASA as of September 30, 2009, showing a profit for the period of MNOK 12,4. The condensed consolidated financial Statement comprises the balance sheet, the statements of income, cash flow, the consolidated statement of comprehensive income, the statement of changes in equity and selected explanatory notes by September 30, 2009. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard No 34 adopted by EU. Our responsibility is to express a conclusion on this interim financial information based on our review.

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information does not give a true and fair view of the financial position of the entity as at September 30, 2009, and of its financial performance and its cash flows for the nine-month period then ended in accordance with International Accounting Standard no 34 as adopted by EU.

Oslo, October 27, 2009 Deloitte AS
