Interim report 2015

Storebrand Helseforsikring AS

Interim Report Storebrand Helseforsikring AS As at 31 March 2015

Profit before tax is NOK -12.0 million (NOK 7.2 million) in 1st quarter.

Premiums earned totalled NOK 128.4 million (NOK 116.2 million) in 1st quarter. This is an increase of 11 per cent compared to the equivalent period in 2014. Measured by annual premiums, Storebrand Helseforsikring holds a market-leading position in Norway. Health-related insurance are growing, and the company succeed on the market. This is driven by companies' desire to reduce sick leave, increased work satisfaction and reduction in total insurance costs and increased popularity among the employees for this type of employee benefits.

Cost of claims amounted to NOK 116.5 million (NOK 86.5 million) in 1st quarter. The claims ratio for own account stood at 91 per cent (74 per cent) in 1st quarter. 1st quarter is traditionally a weak quarter for Storebrand Helseforsikring, but the underlying risk development is still satisfying.

Insurance-related operating costs came to NOK 23.3 million (NOK 23.8 million) in 1st quarter. The net cost ratio for own account ended up at 18 per cent (20 per cent) in 1st quarter, reflecting improved efficiency in the operations of the company.

The net financial items amounted to NOK 0.0 million (NOK 1.6 million) in 1st quarter .The company has maintained a conservative investment profile, with most of the funds placed in interest and credit. The underlying financial result is good, but a weakening of the Swedish krona has resulted in an accounting loss on the hedging of Swedish insurance liabilities. The effects on the Swedish insurance liabilities are not included in the net financial items, but in the other comprehensive income.

The capital adequacy requirement is 8 per cent of risk-weighted balance sheet and the company's capital adequacy ratio was 52.2 per cent as at 31 March 2015 down from 68.0 per cent at the beginning of the year. The decrease is due to somewhat higher risk weight in the balance and that negative results are counted in the calculation of regulatory capital directly.

The solvency margin requirement is 100 per cent and the solvency margin is estimated to be 178.4 per cent as at 31 March 2015, down from 197.3 per cent at the beginning of the year. The reason for the decline is an increase in premium income while capital is affected by the negative result.

Oslo, 20th May 2015 The Board of Storebrand Helseforsikring AS

Notes Storebrand Helseforsikring AS

Note Accounting principles

The accounts have been presented in accordance with the accounting principles applied in the 2014 Annual Accounts. A description of the accounting principles is given in the 2014 Annual Report.

Note Fir

Financial risks

There is no change in the risk picture compared to that described in the 2014 Annual Report

Capital requirements

Non-life insurance companies comply with the same capital adequacy rules as life insurance companies, banks and other financial institutions. The requirement is equity and subordinated loan capital (primary capital) equal to 8 per cent of the risk-weighted balance sheet.
