Interim Report Storebrand Livsforsikring

Q3 2009

😋 storebrand

Interim report for Storebrand Livsforsikring Group - Q3 2009

IN BRIEF

- Good returns produced strong results and enabled reversal of previously charged equity
- Strengthened customer buffers in both the Norwegian and Swedish business
- Continued positive sales development in Sweden

In June 2009, Storebrand Livsforsikring AS issued a bond that was listed on the Oslo Stock Exchange.

Storebrand Livsforsikring AS is a wholly owned subsidiary of the listed company Storebrand ASA. For information about the Storebrand Group's Q3 result please refer to the Storebrand Group's interim report for the Q3 of 2009.

The official financial statements of the Storebrand Group are prepared in accordance with the International Financial Reporting Standards (IFRS), while the official consolidated financial statements of Storebrand Livsforsikring AS are prepared in accordance with the Annual Accounts Regulations for Insurance Companies.

One significant difference between the Annual Accounts Regulations and IFRS is that pursuant to IFRS one can charge additional statutory reserves continuously throughout the year, while pursuant to the Annual Accounts Regulations this is only permissible upon the preparation of the annual financial statements.

As per 30 September, a credit of NOK 4 million is estimated on additional statutory reserves and buffer provisions to cover returns falling below the guarantees in some of the customer portfolios. However, this needs to be taken into account in estimating the capital base when calculating the capital adequacy and solvency.

The table below summarises the information in the consolidated financial statements for Storebrand Livsforsikring AS based on IFRS principles.

RISK

Storebrand is exposed to several types of risk through its business areas. The continuous monitoring and active management of risk is therefore an integral core area in the group's activities and organisation. Developments in level of interest rates and real estate markets are regarded as the most important risk factors that could affect the group's profit in the future. Storebrand employs solvency-based risk management in its life insurance activities. The goal of this is to tailor the financial risk to the company's risk bearing capacity.

Life and Pensions

The development of the results in Life and Pensions in Norway and Sweden is described below. The Norwegian and the Swedish business are presented exclusive internal transactions.

¹⁾ interest result and profit sharing

The administration result was minus NOK 38 million (minus NOK 15 million) for Q3 and minus NOK 150 million (minus NOK 121 million) for the year-to-date. The quarter's result was weak, but the effects of the underlying reduction in costs due to lower staffing levels in a number of areas is beginning to produce results. Costs are being reduced and this will improve the administration result going forward.

The risk result was NOK 50 million (NOK 162 million) for Q3 and NOK 167 million (NOK 464 million) for the year-to-date.

The financial result was NOK 255 million (minus NOK 801 million) for Q3 and NOK 185 million (minus NOK 673 million) for the yearto-date. The positive result for the period was due to good investment return in the customer portfolios which enabled the reversal of previous charges to equity. The buffer capital has increased with NOK 376 million in the quarter. Building of buffer capital will also be prioritised in Q4.

The result for other activities was NOK 24 million (minus NOK 65 million) for Q3 and NOK 11 million (minus NOK 29 million) for the year-to-date. The transaction with Formuesforvaltning has a positive result effect in the quarter.

Profit allocated to the owner for the product areas

| Change in invested assets in Q3 (NOK bn) | 1 | 2 | 1 | 2 | -1 | 5 | |

¹⁾ interest result and profit sharing

The profit allocated to the owner is generated via four primary product areas, as well as the return on the company portfolio.

Group defined benefit fee-based

The profit allocated to the owner pursuant to the new insurance act is less dependent on the return recognised in the customer portfolios due to upfront pricing of the interest guarantee and profit from risk. NOK 118 million was recognised as income from upfront pricing of the interest guarantee and profit from risk for group defined benefit in Q3. NOK 353 million had been recognised as income in the year-to-date.

Up to 50% of the risk result for group defined benefit pensions can be set aside in the risk equalisation fund to cover any future negative risk result. The disability result in Q3 was weaker than in the same period last year. NOK 29 million was set aside in the risk equalisation fund for group private sector in Q3. A negative risk result for the public sector of NOK 36 million was also covered, producing a net result of minus NOK 7 million for Q3. The risk equalisation fund for group defined benefit amounted to NOK 211 million as per 30 September 2009.

Defined contribution and unit-linked fee-based

The result of minus NOK 14 million for Q3 indicates a positive trend due to volume growth relative to earlier quarters in 2009. This trend is expected to continue.

Risk products

The total profit allocated to the owner for risk products amounts to NOK 51 million for Q3 and NOK 126 million for the year-to-date. The result was characterised by a good financial return, but the underlying risk result is weaker than last year's due to increased disability pension costs.

Individual and paid-up policies with profit sharing

The return on individual products in Q3 was better than the interest guarantee, while for the year-to-date it is marginally lower than the guaranteed return. NOK 15 million was credited to the

profit allocated to the owner in Q3 due to the reversal of previously charged equity. The total charge on the owner's equity due to insufficient additional statutory reserves was reduced to NOK 4 million as per 30 September.

The return for paid-up policies for Q3 and the year-to-date is better than the average interest guarantee in the portfolio of 3.8%. NOK 155 million of charges to equity were reversed in Q3 and there were no charges as per 30 September. The profit allocated to the owner was credited with NOK 4 million in Q3 due to the positive administration result.

As with group defined benefits, up to 50% of the paid-up policies' risk result can be set aside to the risk equalisation fund. NOK 27 million was set aside in Q3 to the risk equalisation fund for paid-up policies, which amounted to NOK 41 million at the close of the quarter.

Company portfolio/other

The company portfolio's result, excluding subsidiaries, is NOK 35 million for Q3 and NOK 58 million for the year-to-date. The return on invested assets was 1.3% in Q3 and 3.5% in the year-to-date. The Norwegian money market portfolio, which currently constitutes 68% of the investment portfolio, has produced a good return both for the quarter and for the year-to-date. The company portfolio is principally invested in low risk assets classes. Storebrand Life Insurance's lending interest costs amount to around a net NOK 130 million per quarter for the next 12 months. Total interest-bearing liabilities amounted to around NOK 6.7 billion at the close of the quarter.

On 1 July, Storebrand acquired 14% of the shares in the advisory firm Formuesforvaltning AS through a transfer of some customer portfolios. Storebrand has an option to increase its ownership interest to 20.8%. Formuesforvaltning AS provides advice to the high income segment. The transaction has a positive effect on the result amounting to NOK 51 million in Q3.

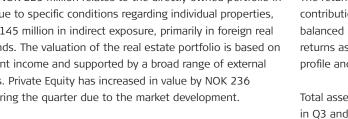

Return and risk capital

Investement return - customer portfolios with guarantee

| | | Q3 | | | 01.01 - 30.09 | | | | Full year | |
|------------------|-------|-------|--------|--------|---------------|-------|--------|--------|-----------|--------|
| | 2009 | | 2008 | | 2009 | | 2008 | | 2008 | |
| | | | | | | | | | | Booked |
| Portfolio | | | | | | | | | | return |
| Total | 1.6 % | 1.6 % | -1.4 % | -1.4 % | 3.1 % | 3.1 % | -2.0 % | 0.3 % | -0.2 % | 2.0 % |
| Group standard | 1.6 % | 1.6 % | -1.4 % | -1.4 % | 3.2 % | 3.2 % | -1.6 % | 0.3 % | -0.2 % | 2.6 % |
| Paid-up policies | 1.6 % | 1.6 % | -1.7 % | -1.7 % | 3.0 % | 3.0 % | -3.1 % | -0.4 % | -1.3 % | 0.9 % |
| Individual | 1.6 % | 1.6 % | -1.2 % | -1.2 % | 2.8 % | 2.8 % | -1.6 % | 0.7 % | -0.1 % | 2.6 % |

All the customer portfolios with interest guarantees achieved good returns during the period. The return now exceeds the average interest guarantee in all of the portfolios with the exception of the individual portfolio in which it is 0.1 percentage points lower than the guaranteed return.

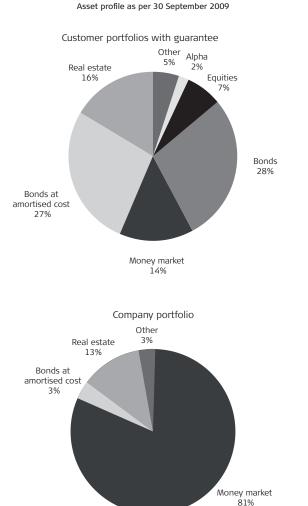

Real estate values were written down by NOK 370 million in Q3. Of these NOK 225 million relates to the directly owned portfolio in Norway due to specific conditions regarding individual properties, and NOK 145 million in indirect exposure, primarily in foreign real estate funds. The valuation of the real estate portfolio is based on current rent income and supported by a broad range of external valuations. Private Equity has increased in value by NOK 236 million during the quarter due to the market development.

The diagrams below show the risk-adjusted allocations (including derivatives). Loans and receivables in the customer portfolios have increased in 2009, primarily in Q2. The proportion of equities in the portfolios has also increased and now ranges from 4% to 13%. Relatively small changes were made to the company portfolio's allocations during Q3.

The returns on recommended investment choices for defined contribution pensions in Q3 were 4.2% for careful profile, 8.3% for balanced profile, and 12.2% for aggressive profile, respectively. The returns as per Q3 were 8.1% for careful profile, 15.4% for balanced profile and 22.1% for aggressive profile, respectively.

Total assets under management increased by around NOK 6 billion in Q3 and amounted to NOK 203 billion at the close of the quarter.

| funds with guarantee | | | | | |
| excl. ASR and CB | | | | | |

Solvency capital strengthened during Q3 due to positive result development and increase in customer buffers. Additional statutory reserves amounted to NOK 3.4 billion at the close of Q3, an increase of NOK 376 million during the quarter.

Storebrand Life Insurance Group's capital adequacy at the close of the quarter was 15.9%, almost unchanged during the quarter. Storebrand Life Insurance Group had a solvency margin of 161%, an improvement of 7 percentage points during Q3 which was due to positive result development and increased additional statutory reserves.

Premium performance

Premium income

| 260 |
| 638 |
| |
| 023 |
| |
| 338 |
| |
| 304 |
| |

Total premium income increased by 0.6% during the quarter compared to the same period last year. The development of the occupational pensions market was characterised by lower wage growth this year than in the same period last year. The transfer balance with competitors is positive for the year-to-date and premium income for group pensions with investment choice has developed well.

The net booked outflow of customer assets from Storebrand was NOK 443 million in Q3 compared to an outflow of NOK 375 million in the same period last year. An inflow of customer assets amounting to NOK 548 million (NOK 2,702 million) has been booked for the year-to-date. Sales of savings products in the retail market remained at a low level in Q3 with the exception of the product guarantee account for which the premium income was NOK 610 million in the quarter and assets under management totalled more than NOK 1 billion.

New premiums (APE) worth NOK 201 million (NOK 236 million) were signed in Q3. APE at the end of Q3 amounted to NOK 778 million (NOK 1,371 million). The fall since 2008 is primarily due to the reduced APE for group defined benefit pensions. Paid-up policies have increased since 2008. New group pensions premiums (APE) increased by NOK 126 million (NOK 23 million) in the public sector in Q3. The fall in APE being experienced in the individual sectors also continued in Q3. The company is participating in a number of major tender processes which will be decided in Q4.

| Pre-tax profit/loss | 394 | -3,238 | -77 | -3,476 | -2,145 |

Administration result

The administration result was minus NOK 4 million (minus NOK 6 million) for Q3 and minus NOK 64 million (NOK 1 million) for the year-to-date. The growth in assets under management in Q3 resulted in increased administration income. Concluded integration and separation projects as well as completed restructuring process will reduce costs in the future. However, the result for the year-to-date is lower than in the same period last year. This is due to increase marketing activities and one-time costs in connection with the restructuring, separation and integration projects that were concluded at the close of H1.

Risk result

The risk result was NOK 59 million (NOK 59 million) for Q3 and NOK 170 million (NOK 192 million) for the year-to-date. The risk result was primarily affected by dissolved disability reserves. The result has developed somewhat poorly in year-to-date compared to the same period in 2008 when the dissolution gain from disability reserves was higher.

Financial result

SPP was positioned for an upturn in equities in Q3 through increased equity proportions and reduced hedging programmes. The good development of the equities and credit markets in the quarter contributed to good returns and a strong financial result. The financial result was NOK 372 million (minus NOK 610 million) for Q3, NOK 360 million of which was due to a reversal of deferred capital contribution (DCC). The positive return produced profit sharing of NOK 96 million. The financial result for the year-to-date amounts to NOK 15 million (minus NOK 844 million).

Other

The other result was NOK 57 million (minus NOK 51 million) for Q3 and NOK 60 million (NOK 63 million) for the year-to-date. The result was affected by the good return in the company portfolio, which has entirely been invested in interest-bearing securities.

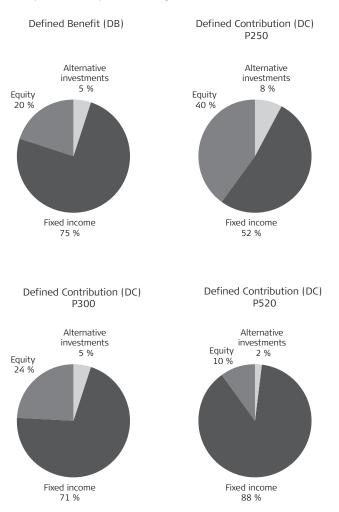

Return and risk capital

Financial return

| | | 23 | | - 30.09 | |
|-----------------------------|------|-------|------|---------|-------|
| NOK million | 2009 | 2008 | | 2008 | 2008 |
| Defined Benefit (DB) % | 4.0% | 0.2% | 2.6% | -4.8% | 0.6% |
| Defined Contribution (DC) % | | -0.1% | | -5.8% | |
| P250* | 5.9% | | 7.1% | | -5.9% |
| P300* | 4.5% | | 3.1% | | 1.2% |
| P520* | 3.8% | | 1.7% | | 9.6% |
| Retirement Pension (RP) | 0.6% | | 0.7% | | |

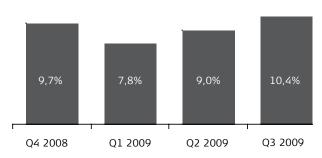

The strong development in the equities and credit markets contributed to good returns in all portfolios in Q3. The positive return resulted in profit sharing in P250 and P300 portfolios.

Asset profile customer portfolios with a guaranteed return

The proportion of equities in all portfolios increased in Q3 and now ranges between 10% and 40%. During the quarter, the proportion of equities increased by 13 percentage points in the DB portfolio and in the DC portfolio by 14 percentage points in the P250 and the P300 portfolios, as well as 6 percentage points in the P520 portfolio. The RP portfolio in which retirement pensions are managed is entirely invested in fixed income bonds.

Conditional bonus (buffer capital) as a percentage of insurance reserves

During Q3, the conditional bonus (the insurance customers' buffer capital) increased by NOK 1.3 billion and amounted to NOK 8.2 billion at the close of Q3. The assets under management increased by NOK 5.4 billion during the same period. The capital in unit linked insurance increased by NOK 1.7 billion and the net subscriptions trend remains positive. The assets under management have increased by a total of 13% in the year-to-date if one includes Nordben from and including the close of H1.

The solvency margin has improved strongly since the start of the year from 135% to 200% as per 30 September 2009. The interest rate used to calculate liabilities in a solvency context increased during the period and largely explains the increase.

Premium performance

Premium income

| | | | | | Full |
|------------------|-------|-------|-------|---------|-------|
| | | | | - 30.09 | year |
| NOK million | 2009 | 2008 | | 2008 | 2008 |
| Single premiums | 242 | 416 | 1,124 | 1,208 | 1,681 |
| Current premiums | 1,452 | 1,210 | 4,585 | 4,326 | 5,615 |
| Total | 1,694 | 1,626 | 5,709 | 5,534 | 7,296 |

New sales are developing positively with 10% increase year-todate measured in APE. Premium income continued to increase during the quarter and current premiums increased by 20% compared to the same period last year. New sales increased in unit linked insurance, with group plan products with choice of provider increasing the most. New sales via broker channels also increased strongly in Q3 and are 89% higher for the year-to-date than in the same period in 2008. This positive trend is also reflected by an annual survey conducted by CMA Research in which pension agents give their evaluations of Swedish insurance companies. According to the survey the overall impression of SPP has improved and almost half of respondents state they believe the number of transactions with SPP will increase.

* Maximum interest rate guarantee in the portfolios P250, P300 and P520 is 2.5%, 3.0% and 5.2% respectively.

NOTE 1: ACCOUNTING POLICIES

The accounts were prepared in accordance with the accounting policies applied in the 2008 annual accounts, and in accordance with Annual Accounts Regulations for Insurance Companies (NGAAP). A description of the accounting policies is provided in the 2008 annual report.

NOTE 2: ESTIMATES

In preparing the interim accounts, Storebrand has used assumptions and estimates that affect reported amounts of assets, liabilities, revenues, costs and information in the notes to the accounts, as well as the information provided on contingent liabilities. The final values realised may differ from these estimates. Please refer to the discussions in notes 2 and 3 of the 2008 annual report.

¹⁾ Classified as equity and units in the statement of financial position

Calculation of fair value for properties

The company carries out its own valuations of the properties. The properties are valued individually by discounting estimated future net net income streams by a discount rate corresponding to the yield requirement for the relevant investment. The net income stream takes into account existing and future reductions in income resulting from vacancy, necessary investments and an assessment of the future development in market rents. The yield requirement is based on the expected future risk-free interest rate and an individually determined risk premium, dependent on the letting situation and the building's location and standard. In the case of shopping centres the property's value is calculated on the basis of a market yield (direct return in year 1) for the individual property and not the discounted long-term cash flow. In cases where it is known significant changes will occur to the expected cash flow in later years, this is taken account of in the valuation. The number of transactions in the market has been limited due to the financial instability and in general the uncertainty associated with the information used in valuations has increased compared with before. External valuations are also obtained for a representative selection of the company's properties to support its own valuations.

NOTE 5: FINANCIAL RISKS

The market value of Storebrand's financial assets and liabilities varies due to financial market risks. Note 19 of the 2008 annal report explains the group's financial risks in general and in particular at the end of 2008/start of 2009.

As per Q3, equities risk has increased due to purchases in accordance with dynamic risk management and value increases of around 3 percentage points. The credit risk has increased somewhat since Q1. Papers with a high net interest margin against the state also reap a liquidity premium. Part of this exposure lies in the company's loans and receivables interest portfolio. The interest risk in short-term bonds has decreased in the year-to-date. The liquidity in the portfolio is good and well within the limits defined in the company's liquidity strategy. The asset class that contributes most to the risk in the portfolio is real estate. This has remained relatively unchanged since the start of the year.

Other risk factors are considered to have largely remained unchanged.

To the board of Storebrand Livsforsikring AS

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

We have reviewed the condensed consolidated financial statement of Storebrand Livsforsikring AS as of September 30, 2009, showing a comprehensive income of MNOK 454,5. The condensed consolidated financial Statement comprises the balance sheet, the statements of income, cash flow, the statement of changes in equity and selected explanatory notes by September 30, 2009. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with the rules of the Norwegian Accounting Act and generally accepted accounting practice in Norway. Our responsibility is to express a conclusion on this interim financial information based on our review.

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information does not give a true and fair view of the financial position of the entity as at September 30, 2009, and of its financial performance and its cash flows for the nine-month period then ended in accordance with the rules of the Norwegian Accounting Act and generally accepted accounting practice in Norway.

Oslo, October 27, 2009 Deloitte AS

Ingebret G. Hisdal (signed) State Authorized Public Accountant (Norway)

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, and its network of member firms, each of which is a legally separate and independent entity.
