### Notice:

This document may contain forward-looking statements. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances that may be beyond the Storebrand Group's control. As a result, the Storebrand Group's actual future financial condition, performance and results may differ materially from the plans, goals and expectations set forth in these forward-looking statements. Important factors that may cause such a difference for the Storebrand Group include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) market related risks such as changes in equity markets, interest rates and exchange rates, and the performance of financial markets generally. The Storebrand Group assumes no responsibility to update any of the forward-looking statements contained in this document or any other forward-looking statements it may make. This document contains alternative performance measures (APM) as defined by The European Securities and Market Authority (ESMA). An overview of APM can be found at [www.storebrand.com/ir](http://www.storebrand.com/ir)

# Storebrand Livsforsikring group

Storebrand Livsforsikring AS is a wholly owned subsidiary of the listed company Storebrand ASA. For information about the Storebrand Group's 1st quarter result please refer to the Storebrand Group's interim report for the 1st quarter of 2019. Storebrand Group's ambition is to be the best provider of pension savings. The Group offers an integrated product range spanning from life insurance, P&C insurance, asset management and banking to private individuals, companies and public sector entities. The Group is divided into the segments Savings, Insurance, Guaranteed Pension and Other.

## PROFIT STOREBRAND LIVSFORSIKRING GROUP

(NOK million)	2019		2018			1.1 - 31.03		Full year
	Q1	Q4	Q3	Q2	Q1	2019	2018	2018
Fee and administration income	809	776	821	800	788	809	788	3,185
Insurance result	170	199	239	274	234	170	234	947
Operational expenses	-577	-653	-593	-609	-599	-577	-599	-2,454
<b>Operating profit</b>	<b>402</b>	<b>322</b>	<b>467</b>	<b>466</b>	<b>423</b>	<b>402</b>	<b>423</b>	<b>1,678</b>
Financial items and risk result life & pension	194	36	148	151	302	194	302	637
<b>Profit before amortisation</b>	<b>596</b>	<b>358</b>	<b>615</b>	<b>616</b>	<b>725</b>	<b>596</b>	<b>725</b>	<b>2,315</b>
Amortisation	-86	-85	-84	-85	-50	-86	-50	-305
<b>Profit before tax</b>	<b>511</b>	<b>273</b>	<b>531</b>	<b>532</b>	<b>675</b>	<b>511</b>	<b>675</b>	<b>2,010</b>

The profit before amortisation was NOK 596m (NOK 725m) in the 1st quarter. The figures in brackets are from the corresponding period last year.

Total fee and administration income amounted to NOK 809m (NOK 788m) for the 1st quarter representing an increase of 4.1% compared to the same period last year, when adjusted for currency changes. Income within the segment Guaranteed Pension decreased by 1% compared to same period last year. This is in line with the run off of the Guaranteed Pension schemes, while the Savings segment increased income by 11%.

The Insurance result had a total combined ratio of 89% (82%) in the quarter. High claims in Group Life decreases the segment result.

The operating costs in the 1st quarter were NOK 577m (NOK 599m). The underlying cost control is strong. Volume growth within the Saving segment has resulted in a larger part of the Group's costs being allocated to this segment.

Overall, the operating profit decreased in the quarter compared to last year. Strong insurance results in Q1 2018 is the main explanation for the difference compared to last year. The 'financial items and risk result' was strong in the quarter due to high returns in company portfolios. The return was generated by a higher interest rate level in the short end of the curve and tighter credit spreads.

## PROFIT STOREBRAND LIVSFORSIKRING GROUP - BY BUSINESS AREA

(NOK million)	2019		2018			1.1 - 31.03		Full year
	Q1	Q4	Q3	Q2	Q1	2019	2018	2018
Savings	150	115	133	134	109	150	109	491
Insurance	74	67	153	179	155	74	155	554
Guaranteed pensions	249	217	295	236	401	249	401	1,148
Other	124	-40	35	67	60	124	60	121
<b>Profit before amortisation</b>	<b>596</b>	<b>358</b>	<b>615</b>	<b>616</b>	<b>725</b>	<b>596</b>	<b>725</b>	<b>2,315</b>

The Savings segment reported a profit of NOK 150m (NOK 109m) for the 1st quarter. Structural growth and positive equity markets within Unit linked savings contribute positively to the result.

The Insurance segment reported a profit of NOK 74m (NOK 155m) for the 1st quarter. The risk result gives a claims ratio of 75% (68%) in the quarter.

The Guaranteed Pension segment achieved a profit before amortisation of NOK 249m (NOK 401m) for the 1st quarter. Dissolution of longevity reserves in the 1st quarter last year contribute to the result development. Fee and administration income is reduced by 2% compared to last year. The products within Guaranteed Pension are in long-term runoff and reduced earnings from this segment are to be expected over time.

The Other segment includes the return in company portfolios, credit spreads tightening affects results positively.

#### **CAPITAL SITUATION**

Storebrand uses the standard model for the calculation of Solvency II. The Storebrand Group's target solvency margin in accordance with the Solvency II regulations is a minimum of 150%, including use of

the transitional rules. The solvency margin was calculated to 172% at the end of the 1st quarter of 2019, including a two percentage points effect from transitional rules. The solvency margin was 173% at the end of the 1st quarter 2019, unchanged from year end 2018. The Solvency margin without transitional rules was 171%. Strong asset returns increases buffer capital in the guaranteed business lines and strengthens the solvency position. Volatility reducing factors in the solvency regulations (volatility adjustment, symmetrical equity adjustment) in combination with lower interest rates contributes negatively to the solvency position.

#### **MARKET AND SALES PERFORMANCE**

The growth in Unit linked savings is driven by premiums from existing contracts, investment returns and conversion from defined benefit schemes and increased savings rates. Assets under management in the Unit Linked business in Norway and Sweden increased by NOK 19bn (11%) relative to the same period in 2018. In Norway, Storebrand is the market leader in Unit Linked occupational pension with 31% of the market share of gross premiums written (at the end of the 4th quarter 2018). SPP has a market share of 14% in the Swedish market for other occupational pensions ("Övrig Tjänstepension", at the end of 4th quarter).

# Savings

- Strong growth in the Unit Linked business in the quarter
- Increased costs due to underlying growth in the business

The Savings segment includes products for retirement savings with no interest rate guarantees. The segment consists of defined contribution pensions in Norway and Sweden.

## SAVINGS

(NOK million)	2019		2018			1.1 - 31.03		Full year
	Q1	Q4	Q3	Q2	Q1	2019	2018	2018
Fee and administration income	435	427	425	406	398	435	398	1,655
Insurance result								
- Insurance premiums f.o.a.								
- Claims f.o.a.								
Operational expenses	-281	-301	-286	-270	-283	-281	-283	-1,139
<b>Operating profit</b>	<b>153</b>	<b>126</b>	<b>139</b>	<b>136</b>	<b>116</b>	<b>153</b>	<b>116</b>	<b>516</b>
Financial itmens and risk result life & pension	-3	-11	-6	-2	-6	-3	-6	-25
<b>Profit before amortisation</b>	<b>150</b>	<b>115</b>	<b>133</b>	<b>134</b>	<b>109</b>	<b>150</b>	<b>109</b>	<b>491</b>

## PROFIT

The Savings segment reported a profit before amortisation and tax of NOK 153m (NOK 116m) for for the 1st quarter. Turbulent market conditions in the 4th quarter 2018 lead to lower assets under management at the beginning of 2019, but good returns in the 1st quarter has contributed to growth.

Fee- and administration income increased by 10.9% for the quarter, when adjusted for currency changes. Returns, customer conversion from defined-benefit to defined-contribution pension schemes, new business and higher savings rates drive income growth. Increased competition contributes to moderate margin pressure both for the Norwegian and the Swedish Unit Linked products.

Operating expenses was NOK 281m for the quarter (NOK 283m). The operating expenses are impacted by underlying growth in the business.

## BALANCE SHEET AND MARKET TRENDS

The Unit Linked premiums were NOK 4.2bn at the end of 1st quarter, growing by 7% in the quarter and 11% from the 1st quarter last year. The total assets under management in Unit Linked have increased by 19bn (7%) during 1st quarter and amounted to NOK 191bn at the end of the quarter. In the Norwegian Unit Linked business the assets under management increased by NOK 6bn (7%) in the quarter and NOK 11 bn (12%) last year. The underlying growth is driven by premium payments for existing contracts, returns and conversion from defined benefit schemes. In Norway, Storebrand is the market leader in Unit Linked with 31% of the market share of gross premiums written (at the end of the 4th quarter).

In the Swedish market, SPP is the fourth largest supplier in the Other Occupational Pensions segment with a market share of 14% measured by premium income from Unit Linked. Customer assets increased by SEK 10.2bn (12%) both in the 1st quarter and compared to the same period last year.

## KEY FIGURES

(NOK million)	2019		2018		
	Q1	Q4	Q3	Q2	Q1
Unit Linked Reserves	190,971	187,016	187,016	178,498	171,749
Unit Linked Premiums	4,237	4,096	4,096	3,892	3,947

# Insurance

- High claims frequency in Group Life decreases the segment result
- Continued cost control keeps the operational costs stable

The Insurance segment provides personal risk products in the Norwegian and Swedish retail market and employee insurance and pensions-related insurance in the Norwegian and Swedish corporate market.

## INSURANCE

(NOK million)	2019		2018			1.1 - 31.03		Full year 2018
	Q1	Q4	Q3	Q2	Q1	2019	2018	
Fee and administration income								
Insurance result	170	199	239	274	234	170	234	947

<b>Profit before amortisation</b>	<b>74</b>	<b>67</b>	<b>153</b>	<b>179</b>	<b>155</b>	<b>74</b>	<b>155</b>	<b>554</b>

## PROFIT

Insurance delivered a result before amortization of NOK 75m (NOK 135m) for the 1st quarter. The combined ratio was 89% (82%) in the quarter. The 1st quarter claims ratio was 75% (68%) and is weaker due to Group Life development.

The 1st quarter claims ratio was 75% (68%) and is weaker due to Group Life development. Individual insurance coverage has stable claims ratio compared to last year. There was introduced a new product in 2018 with a successful sales start. Group Life delivers weak risk results due to high claims frequency and a number of specific large claims. Measures will be taken to improve profitability going forward and repricing measures has been implemented. The risk result for Group Disability Pension is driven by a good disability development, but competition and price pressure are high in the market. The Swedish disability result is stronger than expected due to good disability development.

The cost ratio was 14% (13%) in the 1st quarter and cost control has been satisfactory in the period.

Insurance's investment portfolio in Norway amounted to NOK 6.6bn as of the 1st quarter, which primarily is invested in fixed income securities with a short to medium duration. The negative return in 4th quarter 2018 was explained by widening credit spreads, which are now reversing.<sup>1)</sup>

## BALANCE SHEET AND MARKET TRENDS

Portfolio premium (annual) amounts to NOK 2 628m (NOK 2 701m) in the 1st quarter.

For risk cover in connection with defined-contribution pensions in Norway, future growth is expected to be driven by pension related disability insurance and salary growth. The new disability pension regulations, which entered into force on 1 January 2016, have resulted in a lower premium volume.

## PORTFOLIO PREMIUM (ANNUAL)

<sup>1)</sup> NNOK 2.6bn of the investment portfolio is linked to disability coverages where the investment result goes to the customer reserves and not as a result element in the P&L.

# Guaranteed pension

- Income reduction in line with strategy and product run-off
- Decreasing cost level
- Moderate risk and financial results

The Guaranteed Pension segment includes long-term pension savings products that give customers a guaranteed rate of return. The area includes defined benefit pensions in Norway and Sweden, paid-up policies and individual capital and pension insurances.

## GUARANTEED PENSION

(NOK million)	2019		2018			1.1 - 31.03		Full year 2018
	Q1	Q4	Q3	Q2	Q1	2019		
Fee and administration income	361	333	369	370	368	361	368	1,440
Insurance result								
- Insurance premiums f.o.a.								
- Claims f.o.a.								
Operational expenses	-186	-223	-179	-215	-200	-186	-200	-816
<b>Operating profit</b>	<b>174</b>	<b>111</b>	<b>190</b>	<b>155</b>	<b>168</b>	<b>174</b>	<b>168</b>	<b>624</b>
Financial itmens and risk result life & pension	74	106	105	81	233	74	233	525
<b>Profit before amortisation</b>	<b>249</b>	<b>217</b>	<b>295</b>	<b>236</b>	<b>401</b>	<b>249</b>	<b>401</b>	<b>1,148</b>

## PROFIT

Guaranteed Pension achieved a profit before amortisation of NOK 249m (NOK 401m) in the 1st quarter. Dissolution of longevity reserves last year contribute to the result development.

Fee and administration income has performed in line with the fact that a large part of the portfolio is mature and in long-term decline. Income was NOK 361m (NOK 368m) in the 1st quarter. This is equivalent to a decline of 2.0% compared with the previous year.

Operating costs amounted to NOK 186m (NOK 200m) in the 1st quarter. Operating costs are being reduced over time as a result of the area being in long-term runoff.

The risk result amounted to NOK 61m (NOK 183) in the 1st quarter. In 2018 the result was positively affected by dissolution of NOK 149m of longevity reserves. The risk result was mainly generated by good results in the Norwegian paid-up policy portfolio while other products areas had moderate results.

The result from profit sharing and loan losses in the Guaranteed Pension segment consists of profit sharing and financial effects. The result was NOK 13m (NOK 51m) in the 1st quarter. The result was generated in the Swedish business. The result is moderate but with underlying strong profit sharing due to good financial returns offset by strenghtening of deferred capital contribution (DCC) due to lower interest rate in Sweden.

## BALANCE SHEET AND MARKET TRENDS

The majority of products are closed for new business, and the customers' choice of transferring from guaranteed to non-guaranteed products is in line with the Group's strategy. As of the 1st quarter, customer reserves for guaranteed pensions amounted to NOK 261bn, which is in line with the previous quarter and an increase of NOK 1.1bn compared to the same quarter last year. The premium income for guaranteed pensions (excluding transfers) was NOK 1.8bn (NOK 2.0bn) for the 1st quarter.

In the Norwegian business, paid-up policies was the only guaranteed pension portfolio experiencing growth, with a total portfolio amounting to NOK 136bn as of the 1st quarter. This is an increase of NOK 3.1bn year to date.

Since 2014, customers have been given the choice to convert from traditional paid-up policies to paid-up policies with investment choice. Reserves for defined-benefit pensions in Norway amounted to NOK 32bn at the end of the 1st quarter, a decline of NOK 0.8bn year to date.

Guaranteed portfolios in the Swedish business totalled NOK 79bn as of the 1st quarter, a reduction of NOK 2.2bn year to date. The reduction is attributed to changes in the SEK/NOK exchange rate.

## KEY FIGURES

(NOK million)	2019		2018		
	Q1	Q4	Q3	Q2	Q1
Guaranteed reserves	260,560	260,573	257,570	257,783	259,426

<b>Profit before amortisation</b>	<b>124</b>	<b>-40</b>	<b>35</b>	<b>67</b>	<b>60</b>	<b>124</b>	<b>60</b>	<b>121</b>

## PROFIT

The Other segment reported a profit of NOK 124m (NOK 60m) for the 1st quarter. Fee and administration income is associated to BenCo's business being wound down.

The financial result for the Other segment includes the company portfolios of SPP and Storebrand Life Insurance as well as the net result for subsidiaries.

The Storebrand Life Insurance Group is funded by a combination of equity and subordinated loans. Given the interest rate level at the end of the 1st quarter, interest expenses of approximately NOK 80m per quarter are expected.

The company portfolios in the Norwegian and Swedish life insurance companies amounted to NOK 23,3bn at end of the quarter.

The investments are primarily in interest-bearing securities, with short maturities, in Norway and Sweden. The Norwegian company portfolio reported a return of 0.91% for the quarter. The Swedish company portfolio provided a return of 0.29% in the quarter.

# Balance sheet and capital situation

Continuous monitoring and active risk management is a core area of Storebrand's business. Risk and solidity are both followed up on at the Group level and in the legal entities. Regulatory requirements for financial strength and risk management follow the legal entities to a large extent. The section is thus divided up by legal entities.

## STOREBRAND LIVSFORSIKRING GROUP

The Solidity capital<sup>1)</sup> measures the amount of IFRS capital available to cover customer liabilities. The solidity capital amounted to NOK 58.6bn at the end of 1st quarter 2019, a decrease of NOK 0.4bn in 1st quarter. The change in the quarter is due to increased customer buffers in the Swedish and Norwegian business and approved dividend to Storebrand ASA.

## STORBRAND LIVSFORSIKRING AS

The market value adjustment reserve increased during the 1st quarter by NOK 2.1bn and amounted to NOK 4.3bn at the end of the 1st quarter of 2019. The additional statutory reserves decreased during 1st quarter by NOK 0.2bn due to preliminary calculated deduction due to weak booked return and amounted to NOK 8.2bn at the end of the 1st quarter 2019. The excess value of bonds and loans valued at amortised cost increased by NOK 0.9bn in the 1st quarter and amounted to NOK 5.9bn at the end of the 1st quarter 2019 due to increases in interest rates. The excess value of bonds and loans at amortised cost is not included in the financial statements.

## CUSTOMER BUFFERS

## ALLOCATION OF GUARANTEED CUSTOMER ASSETS

Customer assets increased by NOK 8.7bn in the 1st quarter due to positive investment returns. Customer assets totaled NOK 281bn at the end of the 1st quarter 2019. Customer assets within non-guaranteed savings increased NOK 6.5bn during the 1st quarter and amounted to 100bn at the end of 1st quarter 2019. Guaranteed customer assets increased by NOK 2.2bn in the 1st quarter and amounted to NOK 181bn at the end of 1st quarter 2019.

<sup>1)</sup> Consists of equity, subordinated loan capital, market value adjustment reserve, risk equalisation reserve, unrealised gains/losses on bonds and loans at amortised cost, additional statutory reserves, conditional bonuses.

**SPP**

**BUFFER CAPITAL**

The buffer capital amounted to SEK 7,3bn (SEK 6,6bn in the 4th quarter) at the close of the 1st quarter.

**ALLOCATION OF GUARANTEED CUSTOMER ASSETS**

Total assets under management in SPP were SEK 180bn (SEK 174bn) for the 1st quarter. This corresponds to an increase of 3.4% compared with the 1st quarter of 2018. For customer assets in non-guaranteed savings, assets under management totaled SEK 98bn (SEK 88bn) at the end of 1st quarter, which corresponds to an increase of 11.5%, compared with the 1st quarter of 2018.

# Outlook

## STRATEGY

Storebrand follows a twofold strategy. First, Storebrand aims to build a world class Savings Group supported by Insurance. Storebrand is the market leader in pension solutions to Norwegian businesses and a challenger in the Swedish market, and uniquely positioned in the growing retail savings market. Second, through cost control and disciplined use of capital, Storebrand aims to increase return to shareholders. Storebrand expects to start capital release as dividends when the Group solvency margin is above 180%. The solvency margin is expected to grow 5 percentage points annually after dividends from today's level. The guaranteed business in long term run off is projected to release NOK 10bn in the next ten years until 2027.

## FINANCIAL PERFORMANCE

The market for defined-contribution pensions is growing, and Storebrand's total reserves within Unit Linked increased by 11% in the last 12 months. Continued good growth for defined-contribution pensions is expected in the future. The loyalty program for employees at companies that have a pension scheme at Storebrand remains an important area of focus. The sale of banking products and P&C insurance contributes to growth within the Savings and Insurance segments. The competition in the market has resulted in pressure on margins within these segments. This in turn sets requirements for cost reductions and efficiency improvements in distribution and product solutions to achieve continued profitable growth. In order to realize the ambitions in the retail market, sales must continue to increase.

The Guaranteed Pension segment is in long term runoff and the reserves for the Guaranteed Defined Benefit solutions are decreasing. However, there is continued growth in the reserves linked to paid-up policies due to companies choosing to convert existing defined-benefit schemes to defined-contribution schemes. It is expected that the growth in paid-up policies will decline in the next few years and that there will be flat growth in reserves over several years before the reserves start to fall. The portfolio of paid-up policies makes a limited contribution to the Group results with the present interest rates.

Guaranteed reserves represent a declining share of the Group's total pension reserves and were 57.7% at the end of the quarter, a 2%-point reduction from the previous year.

The Board observes margin pressure in many parts of the group operations. The group has a strong track record on cost control. To ensure profitability, the group continues a strict reign on cost and invests in digital solutions to improve scalability and efficiency.

## RISK

Market risk is the Group's biggest risk. In the Board's self-assessment of risk and solvency (ORSA) process, developments in interest rates, credit spreads, and equity and property values are considered to be the biggest risks that influence the solvency of the Group. Storebrand has adapted to the low interest rates by increasing duration in portfolios and building up buffer capital. The level of the average annual interest rate guarantee is gradually reduced as older policies with higher guarantees are phased out. In the long term, continued low interest rates will represent a risk for products with guaranteed high interest rates. Storebrand has adjusted its asset allocation by building a robust portfolio with bonds at amortised cost to achieve the guaranteed interest rate. For insurance risk, increased longevity and the development in disability are the factors that have greatest influence on solvency. Operational risk may have an effect on solvency. The risk is closely monitored.

## INDIVIDUAL PENSION ACCOUNT

The Storting (parliament) has passed the bill on individual pension accounts. The new scheme is based on existing pension accounts in active defined contribution schemes. Defined contribution capital certificates issued by previous employers ("pensjonskapitalbevis") will be transferred into the active scheme unless the holder of a certificate makes an active choice to stay with his or her current provider ("negative acceptance"). Individuals will be able to transfer the pension account (both current and former earnings) to other providers.

Merging management of the active schemes and capital certificates will increase margin pressure. Storebrand currently has a higher

market share for active defined contribution schemes than for certificates from such schemes. We would therefore expect some new net inflows of certificates as a result of the proposed changes.

We expect the scheme to be introduced in 2021.

#### **NEW PUBLIC SERVICE PENSION**

The Ministry of Labour and Social Affairs has reached an agreement with the labour market parties on a new occupational pension schemes for the public sector. The existing defined benefit scheme will be closed, so that only employees born in 1962 and earlier will continue in the old scheme. Employees born in 1963 and later will earn new pension rights in a hybrid-based scheme from 2020. The market is larger than the private sector market Storebrand is active in today. Storebrand will re-enter the market if sufficient competition is allowed.

#### **GUARANTEED PENSION REGULATION**

The Ministry of Finance has asked the Financial Supervisory Authority to provide proposals for changes in guaranteed pension regulation to follow up the Working Group Report which was published in September 2018.

The Working Group assessed the regulations for profit sharing and buffer building, as well as rules regulating the transfer of pension assets between providers. Changes in these parameters leading to more long term investment strategies are expected to have

positive effects for customers and shareholders. The Financial Supervisory Authority has been asked to consider all regulatory changes considered by the working group, also those that were not recommended by the working group such as making it possible for life insurers to cover annual interest rate guarantees with contingent equity if returns or buffers are not adequate.

The Financial Supervisory Authority's proposals shall be ready by summer 2019. We expect that The Ministry of Finance will then consider which proposals to present for the Storting (parliament) after a public hearing.

#### **MORTGAGE LOANS HELD BY INSURANCE COMPANIES**

The Financial Supervisory Authority has proposed changes capital requirements for mortgage loans held by life insurance companies. The proposal will have limited minimal effect on Storebrand's solvency margin. We expect the Ministry of Finance to consider the proposals after a public hearing.

Lysaker, 7 May 2019

# Notes

## Storebrand Livsforsikring group

### Note 01 | Accounting policies

The Group's interim financial statements include Storebrand Livsforsikring AS, subsidiaries, associated and joint-ventures companies. The financial statements are prepared in accordance with the "Regulation on the annual accounts etc. of lifeinsurance companies" for the parent company and the consolidated financial statements in accordance with IAS 34 Interim Financial Reporting. The interim financial statements do not contain all the information that is required in full annual financial statements.

A description of the accounting policies applied in the preparation of the financial statements are provided in the 2018 annual report, and the interim financial statements are prepared in accordance with these accounting policies.

Storebrand Livsforsikring AS - the company's financial statements

The financial statements have been prepared in accordance with the accounting principles that were used in the annual report for 2018.

During the quarter changes were made to the classification of certain types of transactions in the income statement, and comparable figures have been restated. This has resulted in some minor changes between lines in the income statement, but has no effect on the Group result or the classification in the segment note. Below are the most significant lines that are included in the changes:

- Goodwill
- Other intangible assets
- Other expenses
- Realised gains and losses on investments

There are new accounting standards that entered into effect in 2018.

#### IFRS 16

IFRS 16 Leases replaces the current IAS 17, and entered into force from 1 January 2019. IFRS 16 stipulates principles for recognition, measurement, presentation and disclosure for leases. The new leasing standard do not entail major changes for lessors, but significantly change accounting for lessees. IFRS 16 requires that lessees must, as a starting point, recognise all leases in the balance sheet according to a simplified model that resembles accounting of financial leases under IAS 17. The present value of total lease payments must be recognised as a lease liability and an asset that reflects the right of use of the asset during the lease period, with the exception of short-term agreements and agreements in which the asset has a low value. The `right of use` asset is amortised over the lease period and the depreciation expense is continually recognised in the income statement as an operating expense. Interest expense on the lease liability is recognised in the income statement as a financial expense.

IFRS 16 can be implemented either in accordance with the full retrospective method or modified retrospective method, and Storebrand has selected the modified retrospective method. This means that comparable figures are not restated and the effect is entered in the balance sheet for the implementation year of 2019. Upon implementation, the `right of use` asset and the lease liability is the same amount and have no effect on equity. The transition to IFRS 16 and effects in the first quarter of 2019 is shown in the table below.

Storebrand has used alternative loan rate as discount rate for calculating the present value of the lease payments, and this discount rate is adapted to the individual lease agreement duration. Leases that are shorter than 12 months as of 1 January 2019 and leases that include assets with a value lower than NOK 50,000 will not be recognised in the balance sheet but as an expense over the lease period.

## EFFECTS ON TRANSITION TO IFRS 16

### STOREBRAND LIVSFORSIKRING GROUP

## Note 02 | Estimates

In preparing the Group's financial statements the management are required to make estimates, judgements and assumptions of uncertain amounts. The estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and expectations of future events and represent the management's best judgement at the time the financial statements were prepared.

Actual results may differ from these estimates.

A description of the most critical estimates and judgements that can affect recognised amounts is included in the 2018 annual report in note 2, insurance risk in note 8, valuation of financial instruments at fair value is described in note 13 and in the interim financial statements note 9 Solvency II.

## Note 03 | Profit by segments

Storebrand's operation includes the segments Savings, Insurance, Guaranteed Pension and Other.

### SAVINGS

The savings segment includes products for retirement savings with no interest rate guarantees. The segment consists of defined contribution pensions in Norway and Sweden. In addition, certain other subsidiaries in Storebrand Livsforsikring and SPP are included in Savings.

### INSURANCE

The insurance segment provides personal risk products in the Norwegian retail market and employer's liability insurance and pension-related insurance in the Norwegian and Swedish corporate markets.

### GUARANTEED PENSION

The guaranteed Pension segment includes long-term pension savings products that give customers a guaranteed rate of return. The area includes defined benefit pensions in Norway and Sweden, paid-up policies and individual capital and pension insurances.

### OTHER

The result for the company portfolios and small subsidiaries of Storebrand Life Insurance and SPP. In addition, the activities at BenCo are reported in this segment. The elimination of intra-group transactions that have been included in the other segments has also been included.

### RECONCILIATION WITH THE OFFICIAL PROFIT AND LOSS ACCOUNTING

Profit in the segments are reconciled with the corporate profit and loss account before tax. The corporate profit and loss account includes gross income and gross expenses linked to both the insurance customers and owners. The various segments are to a large extent followed up on net profit margins, including risk and administration results. The profit lines that are used in segment reporting will therefore not be identical with the profit lines in the corporate profit and loss account.

A description of the most important differences is included in the 2018 annual report in note 5 Segment reporting.

### Note 04 | Financial market risk and insurance risk

Risks are described in the annual report for 2018 in note 8 (Insurance risk), note 9 (Financial market risk), note 10 (Liquidity risk), note 11 (Credit risk) and note 12 (Concentrations of risk).

Market risk means changes in the value of assets due to unexpected volatility or changes in prices in the financial markets. It also refers to the risk that the value of the insurance liability develops differently than the assets.

The most significant market risks for Storebrand are equity market risk, credit risk, property price risk, interest rate risk and currency exchange rate risk.

For the life insurance companies, the financial assets are invested in a variety of sub-portfolios. Market risk affects Storebrand's income and profit differently in the different portfolios. There are three main types of sub-portfolios: company portfolios, customer portfolios without a guarantee (unit linked) and customer portfolios with a guarantee.

The market risk in the company portfolios has a direct impact on Storebrand's profit.

The market risk in customer portfolios without a guarantee (unit linked) is at the customers' risk, meaning Storebrand is not directly affected by changes in value. Nevertheless, changes in value do affect Storebrand's profit indirectly. Income is based mainly on the size of the portfolios, while the costs tend to be fixed. Lower returns from the financial market than expected will therefore have a negative effect on Storebrand's income and profit.

For customer portfolios with a guarantee, the net risk for Storebrand will be lower than the gross market risk. The extent of risk sharing with customers depends on several factors, the most important being the size and flexibility of the customer buffers, and also the level and duration of the interest rate guarantee. If the investment return is not sufficiently high to meet the guaranteed interest rate, the shortfall will be met by using customer buffers in the form of risk capital built up from previous years' surpluses. Risk capital primarily consists of unrealised gains, additional statutory reserves and conditional bonuses. Storebrand is responsible for meeting any shortfall that cannot be covered by the customer buffers. For guaranteed customer portfolios, the risk is affected by changes in the interest rate level. Falling interest rates are positive for the investment return in the short term due to price appreciation for bonds, but negative in the long term because it reduces the probability of achieving a return higher than the guarantee.

During the first quarter, the equity and credit markets were strong, regaining most of the sharp corrections during the fourth quarter of 2018. The global equity market rose 13 % during the quarter. The Norwegian equity market rose 8 %. The market for corporate bonds also recovered and credit spreads fell. Reduced spreads was positive for return during the quarter, but lower credit spreads are negative for expected return going forward.

Long term interest rates fell in the first quarter and the German 10 year bond-yield ended the quarter in negative territory. The Norwegian 10-year interest rate swap fell by 0.1 pp. The Swedish 10-year interest swap rate fell by 0.2 pp. But short term interest rates increased slightly, both in Norway and Sweden. Due to the majority of the interest rate investments in the Norwegian customer portfolios being held at amortized cost, changes in interest rates have a limited effect on booked returns in the short term. However, with the present interest rates, new bond investments provide a lower return than the average interest rate guarantee. Lower interest rate is a negative factor for the solvency position.

The Norwegian Krona strengthened during the first quarter. The strengthening was 5 % against the Swedish Krona, 1 % against the US dollar and 2 % against the Euro. A high degree of currency hedging in the portfolio means that the exchange rate fluctuations have a modest effect on results and risk.

During the first quarter, the investment allocation was not materially changed.

Return for guaranteed customer portfolios in Norway on average was higher than the guaranteed rate. Most of the excess return came in the form of increased unrealized gains and overvalues in portfolios held at amortized cost. Return for guaranteed customer portfolios in Sweden was positive and in excess of the increase in value for the liabilities. This led to an increase in conditional bonuses.

Return for unit linked portfolios was good during the quarter, positively affected by the strong equity markets.

Insurance risk is the risk of higher than expected payments and/or an unfavorable change in the value of an insurance liability due to actual developments deviating from what was expected when premiums or provisions were calculated. Most of the insurance risk for the group is related to life insurance. Changes in longevity is the greatest risk because higher longevity means that the guaranteed benefits must be paid over a longer period. There are also risks related to disability and early death.

The insurance risk has only had minor changes during the quarter.

Note 05 | Liquidity risk

Note 06 | Valuation of financial instruments and properties

The Group categorises financial instruments valued at fair value on three different levels. Criteria for the categorisation and processes associated with valuing are described in more detail in note 13 in the annual report for 2018.

The company has established valuation models and gathers information from a wide range of well-informed sources with a view to minimizing the uncertainty of valuations.

**FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES AT AMORTISED COST**

(NOK million)	Fair value 31.03.2019	Fair value 31.12.18	Book value 31.03.2019	Book value 31.12.18

Note  
07

#### Tax

The tax rate for the Group will vary from quarter to quarter depending on the individual legal entities' contribution to earnings. The effective tax rate is influenced by the fact that the Group has operations in countries with tax rates that are different from Norway. In addition, the Group includes Norwegian entities that are both subject to and not subject to the financial tax. Therefore, the company tax rate that applies for the individual Norwegian Group companies, i.e. 22% or 25%, is used in the consolidated financial statements.
