

<b>Storebrand GRI INDEX 2017</b>		
The Global Reporting Initiative (GRI) is a network-based organisation which has played a key role in developing the world's most widely used framework for sustainability reporting. The GRI guidelines include principles, aspects and indicators which can be used by organisations to measure and report economic, environmental and social performance. See <a href="http://globalreporting.org">globalreporting.org</a> for more information about GRI. Storebrand bases its reporting on the revised guidelines from the Global Reporting Initiative (GRI) GRI Standard.
