Storebrand aims to be transparent. We are members of different associations in our different locations, namely Finance Norway, Insurance Sweden and VFF. Storebrand has a direct dialogue with the authorities and political parties concerning regulatory issues. There is no culture in Norway of financial contributions from listed companies to political parties, and Storebrand does not make any such contributions.

- **Sustainability:** EU regulations for sustainable finance and climate risk
- **Solvency II:** Changes in the standard model

¹ The 2020 figure reported previously for Finance Norway has been amended due to a credit note received from Finance Norway in 2021, but applicable to 2020. Due to that fact, 2020 figure for Trade Associations has been amended as well.

Finance Norway

Storebrand is a member of Finance Norway, the national association for Norwegian banks and insurance companies.

Finance Norway advocate the views of the industry towards different groups in Norwegian society: Politicians, government, consumer authorities, international collaborators and decision makers and consumers.

Legislation and regulation given by Parliament and various government

agencies are important for Storebrand.

We seek to influence this through Finance Norway's work on behalf of the industry. Storebrand will also have meetings with politicians and government officials regarding matters of importance to the company.

VFF

Storebrand Asset Management is a member of VFF, the Norwegian Fund and Asset Management Association.

Insurance Sweden

SPP is a member of Insurance Sweden, the national association for Swedish insurance companies. Finance Norway and Insurance Sweden are members of Insurance Europe, the European insurance association.

Swedish Investment Fund Association

The Swedish Investment Fund Association works to promote a sound industry that operates in the best interests of savers. Fund saver satisfaction is a prerequisite of a successful industry.
